

FOR TOP YACHT AND 12.2.71 DESIGNER

AMONG the 25 trophies to be awarded to Cape-to-Rio race winners soon are these two — for the top South African boat and its designer.

The trophies have been designed, made and presented by Mr. Peter Whitworth, former director of South Africa's Design Institute. He wants to "highlight the important role played in the initial concept of a yacht and the increasing skills of our local designers".

The trophies are modern in concept and of solid stainless steel with bronze lettering. "I feel very strongly that modern ocean racing is a product of this day and age and the trophies should reflect this," Mr. Whitworth said.
